Recommendation Rating (1-5):

Looking for a way to effectively change the behavior patterns you do not like? Looking for a way to discipline your child that is consistent and effective? Consider the Time Out Spot!

Time Out Spots come in 3 color choices, brown, pink and blue. They are made of 100% soft acrylic and are washable. Measuring in at 27", these Time Out Spots have a non skid backing, so they will stay where you put them.

It is recommended to measure the time spent on the Time Out Spot according to a child's age. One minute for each year (ie: 4 yrs old = 4 minutes on the Time Out Spot).

When using the Time Out Spot, you will be able to keep your cool as you will have a consistent way to handle discipline problems. When your child chooses to make a bad decision and do what they know is not right, simply tell them it is time for a Time Out. No yelling needed, no tension build up - simply have them go to the Time Out Spot and remain there for the correct time. This will give you time to cool of, and them time to think about how they can avoid this next time.

Using the Time Out Spot will help to create boundaries for your child, that every child looks for and needs. When they have to go to the Time Out Spot, they will realize they have crossed the line. Eventually the frequency should lessen, as they see you remain consistent. However, children being who they are will have to test the lines from time to time, to make sure they are still there.

Time Out Spots give a safe alternative to losing your cool and help the behavior management in your home to be consistent with everyone using the system. When a sitter is there, she can use the same method to modify behavior.

A great product that comes highly recommended. Attractive enough to be used in any room of the home.
