### Time Out Spots

Created by teacher turned mom, Heather Sievers, Time Out Spots are the solution to unsuccessful time outs. Heather was inspired by her then three year old son, Hayden. She started his time outs on a little wooden stool, which immediately became a problem. The stool would get flipped over and scooted around. The last straw was when he picked it up, held it to his bottom, and walked around saying, "I'm still in time out, my bootie is on the stool. Time Out had turned into a game. The family needed a new time out spot! Deciding that a rug would be great for this, Heather designed the Time Out Spot and went on a mission to have it manufactured.

Time Out Spots are 27 inches in diameter and are machine washable. They are super soft, 100% acrylic, similar to a bath mat, and have a non-skid back so that children cannot "scoot" around the room while in time out. Time Out Spots are currently available online at [www.timeoutspots.com](http://www.timeoutspots.com). They are also sold in over 100 retail stores (26 states & 3 countries), continuing to add more each day. The retail price ranges between \$22 & \$25. Time Out Spots are ALWAYS a hit gift (to the parents anyway). All Time Out Spots come bagged with a matching hangtag and ribbon closure. Time Out Spots are a fun, yet practical item. They have been used with not only children but with husbands, pets, and at the office as well!

All little darlings can be mischievous. Put them on the spot with Time Out Spots. The perfect place for when the going gets rough!
